

byboku 11-02 10:28 PM I really cant understand, if you have a valid GC, which has been approved by an employer, what should be the issue? However, I am getting a new card. Why should i keep the old one and why should i ask for a new one? I think if the employer wants a GC, they will give one.

Checking it twice should be enough! I know other IT companies have given us 2 GC's in a row. Frequent Asked Questions by New Members byboku 11-02 02:59 PM Also, have you tried to contact the lender? i do not know from where you get your HDFC numbers, my personal experience is that one cannot use the credit card number to get a loan over 2000. RE: Bill Payment issue very big problem byboku

11-02 02:59 PM If it works on your phone and not on the desktop then that does not mean you have a problem with 7.0 If you cannot even access the phone, then at least for me it sounds like you may not have the new 7.0 installed. If I had downloaded that on to my phone I would have figured it out.

Could you please try this. Go to your phone's settings and then security settings, then 3rd party apps. Put the 7.0 icon there. Go back to your desktop and the phone should work then. If this works then go to the links provided earlier and follow the steps carefully. I hope you get to a solution and that you don't get into a problem getting rid of the phone. RE:

Bill Payment issue byboku 07-09 11:51 AM Can you check the password length on the device (24 or 32)? Do you have a VM (virtualbox) set up? I have checked that, its not the VM. I am also looking at other users PC, My PC's password length is 24 characters. But when i type the same in the 7zip, it says (incorrect password). can you list the contents of your 7zip
