This column has only one value type column with datatype as datetime. I have a lot of records in this table with the values of Expiry_Date as 2015-10-20 17:45:47.193 2016-07-03 13:23:07.991 2016-04-18 16:27:20.591 Now I want to update this table with a condition that, the values of the updated table will be as 2016-04-18 16:27:20.591 so here I would be truncating all the values to 2016-04-18 and only update one date to the newly generated number. How would I do this? A: You can use truncate update T set Expiry_Date = trunc
