Sex work, MSM, and HIV/AIDS are important in the context of HIV/AIDS in the UK and elsewhere. Both MSM and sex workers are often seen as 'high-risk groups' and their links with HIV/AIDS are consequently of concern. However, this is a simplistic assessment of the interdependence of HIV/AIDS, sex work, and MSM. To illustrate the complex interdependence of these 'risky groups', we focus on four areas that we believe are important: (i) sex work; (ii) MSM; (iii) HIV/AIDS prevalence; and (iv) policy and research. These areas, particularly those in number three, are discussed from research, programme, and policy perspectives, and their interdependence is illustrated in diagrams to demonstrate the interdependence of each on the others.Q: How to check number of times a database record has been viewed by another user? I want to track the number of times a record in a database has been viewed by another user. The database is automatically refreshed every 15 minutes so it's not necessary for the user to refresh it. The website has an ajax-based view counter that can be initiated at any point. So if I have a record ID of 1, 1, 1, 2, 2, 2, 1 how do I show a counter of 5? A: I would do a count(\*) and get the max value. In SQL you can use that with select count(\*) from tbl where RecordID = (select max(RecordID) from tbl) Another way is select count(\*) from 3da54e8ca3
