Apps.1. Field of the
Invention The present
invention relates to a
multi-layer wiring board
in which each inner
conductive layer is built
up by alternately

stacking a plurality of insulating layers and a plurality of conductive layers, and a connection method for the multi-layer wiring board. 2. Description of Related Art As a method for improving a signal transmission efficiency in wiring among a

plurality of layers in a multi-layer wiring board, there is known a method for stacking conductive layers insulated with insulating layers in order, and connecting the conductive layers at an upper layer and a lower layer with a via

conductor penetrating
an insulating layer
therebetween. In a
multi-layer wiring board
using this method, each
of the conductive layers
formed in the multi-
layer structure is first
connected with an outer
conductive layer by a
via conductor

penetrating an insulating layer between the conductive layers. Next, the conductive layers positioned at the upper layer and the lower layer are connected by via conductors penetrating between the insulating layers. If

this method is used,
however, a
manufacturing process
is complicated. Further,
a via conductor must be
formed in the insulating
layer between the
conductive layers,
causing an increase in
the number of steps of
manufacturing. It is an

object of the present invention to provide a multi-layer wiring board in which an insulating layer between conductive layers is thickened, to increase a distance between the layers and so that a wiring has improved reliability, and a method

for manufacturing the multi-layer wiring board, in which the number of steps of manufacturing can be decreased and a manufacturing process can be simplified. According to an aspect of the present invention, a multi-layer

wiring board comprises:
a plurality of conductive
layers; a plurality of
insulating layers; and
an insulation layer
disposed in the spaces
between the conductive
layers. The insulation
layer has a thickness in
a region where the
conductive e79caf774b

Singai.Massachusetts voters want a seat at the table for possible bankruptcy by their state's biggest taxpayers. A new campaign is going to the people to let them weigh in on whether a Massachusetts Supreme Court ruling on the state's ability to file for Chapter 9 municipal bankruptcy should be applied to a proposed merger between Holyoke Gas & Electric and Eversource Energy. Sen. John Keenan, D-Dexter, said
