You can either choose a male or a female character. You start off with 18 stats to choose from and one stat before becoming Tarnished you'll be able to purchase more! You can enhance your stats with a stat enhancer, or other enchantments. There are a total of 75 stat enhancers in the game, and 5 categories that you can chose for your own personal style. Some new items in the game include torque bags, a new advancement system that lets you upgrade your character over time, and abilities that you can purchase before becoming a great mage. There are a huge variety of weapons, armor, and other items to purchase. If you want to be a great mage, you can purchase items that will enhance your spell casting. You can equip up to a max of 4 weapons, and it is possible to have multiple weapons equipped at once. Some weapons will even require you to set up your inventory first, making it more convenient. There are 2 separate character classes to choose from; a warrior or a mage. Warriors are stronger and can deal high damage, while mages are much stronger with magic. While you are on the way to becoming an ultimate warrior, mage, or whatever you want you can also pick up other skills that will aid in your journey like cooking, archery, and stealth. You can choose between 2 types of combat. If you want to use magic, you can use a shield to block and attack at the same time. If you want to go full on and deal massive damage, you can use heavy armor and go all out in the battle. Combat takes place in real time. This means that your actions like attacking, blocking, and so on will take place in real time. If you have enough health you can dodge enemy attacks, however a lot of attacks will just deal normal damage to you without attacking or dodge. You can attack by holding down a button or you can choose to auto-attack. The game has a wide variety of enemies that will come at you when you are out traveling and also in dungeons. Some of these enemies include monsters, bandits, and even other adventurers like you! When you enter a dungeon you'll be on your own. You can create traps in dungeons to stop bff6bb2d33
