Fill in the gaps using only the image at your disposal and solve a series of intriguing, multi-tiered puzzles. Link the pieces together by drawing lines between the clues, building a path through the picture and to the solution! How To Play You can play along with a full game guide,

or play on your own to figure out the solutions. You can also create your own puzzles and share your challenges with other players.

APP STORE REVIEWS "WHAT A GREAT STRATEGY, MATH, AND PICTURE-PLUS GAME!" "SIMPLE TO UNDERSTAND, ENJOYABLE FOR PLAYER OF ALL AGES, AND THE PICTURES ARE REALLY HILARIOUS!"

OUR FEEDBACK We're listening. Based on your feedback, we've made some changes and improvements to the game.

- 1) The grid size is now adjusted automatically based on the resolution of the device on which the game is installed. You no longer have to play in a fixed ratio.
- 2) You can now use color touch to paint the gaps between the pieces. You can select different colors for the two sides of the image, or a single color for both.
- 3) You can now swap colors during the game. (You can do so at any time, not just at level switching.)
- 4) The time limit has been greatly reduced. Now there's no penalty for

drawing a line that runs counter to the direction of the arrow: it will still be given credit if your stroke covers the correct area. 5) Solve puzzles on two devices. You can start on one, pause and finish on the other one. 6) The hint system has been improved. When you're stumped on the second puzzle of a level, you no longer have to go back and try the first puzzle. We're happy to answer any questions or hear any feedback you may have. Love the game?
