7 COMMENTS. I was working on minecraft, and I was looking through mods to find out how to create texture packs. Well, I found one, and it was tiny. So I added it and it corrupted the game. I restarted it, and somehow it has created a gigantic texture pack. I wanted to edit it so it would look better and be less jumbled, so I added the mod, and so did it corrupt the texture pack. My biggest concern is that I can't even go back to my right texture pack. I don't know what to do. Please help!. Download. I don't know what to do. Please help!. minecraft. 46 Finds. On the left-hand side of the folder, click on the button called "Advanced". Scroll to the end of the list of folders and type "change size" into the search bar. The results will show you the. Note that this only works on the server. As a server administrator, you should learn how to maintain a server which has a lot of players. And I recommend you to learn this before thinking to increase the size of you server. The following instructions show how to increase the size of a server to more than 1 GB on Linux and Windows server versions. Minecraft 1.11.2. Minecraft 1.11.2 will use a less memory efficient network protocol for communications with other clients. This protocol will delay the sending of packets. As a result, players will experience slow gameplay when you're playing over a slow network. Minecraft 1.8 will support any amount of memory. This means you can play on any amount of servers without running out of memory. The memory consumption is determined by the max players. It is based on the block size. Each block size has a different maximum amount of blocks Minecraft can currently. Use this address if you're using Minecraft 1.8: 16 7B 5B C3 FF B9 EA 04 C8 06 02 07 40 (This address depends on your network settings. On the other hand, if you're using a Minecraft 1.11.2 version: 16 7B 5B C3 FF B9 EA 04 C8 06 02 07 C0. Follow these steps to see how to enable this feature. Go to your server, and then press the button on the top-left corner. Press Open options.txt. Now, press the Find button.
