Worms Multiplayer Pack new features. May 3, 2018 . Worms Ultimate Mayhem singleplayer and multiplayer mode. 4 multiplayer modes, worms bazooka upgrades and achievements. 2 .As previously announced, the Nexus S (i9200) will be available on April 17, starting at \$349.99 with a two-year contract. If you'd like to know exactly when your device will be available, check out our original announcement. In the meantime, here are a few more details about the phone, according to the product page on Motorola's website: Nexus S - Sleek and fast With a slim and stylish body, Nexus S blends classic Droid styling with an advanced touch screen. Nexus S is preloaded with Ice Cream Sandwich, the most powerful version of Android. With its powerful processor, Nexus S is the perfect device for multitasking, surfing the web, streaming movies, or just getting work done. Nexus S will be available in Ice Cream Sandwich. For slightly more clarity, I had originally said that Google would be putting Ice Cream Sandwich on the Nexus S, which is based on a Samsung Android and not officially part of Android in the first place. Therefore, Google's plan is to have it as its own "branded" Android on the Nexus S. Ice Cream Sandwich is based on AOSP (Android Open Source Project), which means it's open for the public to use and modify. Google has confirmed that it will be preinstalled on the Nexus S and available "from launch" (as per the latest post to the nexus-s.com mailing list). This means that it's a free download. We'll be waiting around for that to come to fruition, but, unfortunately, the price is still up in the air. Update: Another story confirmed with Cnet has it that the phone will be \$400, which is a bit more expensive than we had originally thought. Update 2: A new product page is now up, with the \$349.99 price (vs. \$399). Note, though, that this is for the AT&T version of the phone, with a two-year contract. T-Mobile doesn't offer 4G speeds on Android yet, so that price will be higher on that carrier.Q: How to create multiple master pivots from multiple
